Important Legal Information and Disclaimer

This material has been produced by Brevan Howard Asset Management LLP ("BHAM") for its internal reporting purposes and is being made available to you for illustrative purposes only on an ad hoc basis. BHAM has used reasonable skill and care in the preparation of this material from sources believed to be reliable but gives no warranties or representations as to the accuracy or completeness of this information. This material is for information purposes and is not intended to provide a sufficient basis on which to make an investment decision. Past results are not indicative of future results. BHAM may at its discretion decide to provide you with further data or material but makes no representation that such further data or material will be calculated or produced on the same basis, or in the same format, as this material. This material is provided to you on the basis that you are an experienced or existing investor in unregulated collective investment schemes, a Professional Client as defined by the rules of the Financial Services Authority or are otherwise eligible to participate in the fund to which this material relates in under these rules. This material is not intended for, nor should be used by, for Retail Clients and the fund to which this material relates is not available to Retail Clients for investment. Brevan Howard is authorised and regulated by the Financial Services Authority.

This material does not constitute an invitation or offer to subscribe for or purchase any of the products or services mentioned herein, nor is it intended to constitute, and should not be construed as, investment advice. Potential investors in the fund(s) to which this material relates should seek their own independent financial advice. BHAM neither provides investment advice, nor receives and transmits orders from, investors in the fund(s) to which this material relates nor does it carry on any other activities with or for such investors that constitute "MiFID or equivalent third country business" for the purposes of the rules of the Financial Services Authority.

This report is exempt from the restriction on the promotion of an unregulated collective investment scheme in section 238 of the Financial Services and Markets Act 2000 on the basis that it is made available exclusively to and/or directed exclusively at persons who are Professional Clients or Eligible Counterparties for the purposes of the FSA Rules. The investments and investment services to which this report relates are only available to the persons referred to above and other persons should not act or rely on it. Moreover, any investment or service to which this material may relate is not intended for Retail Clients and will not be made available to Retail Clients. You should note that, if you choose to invest in any fund, your capital will be at risk and you may therefore lose some or all of any amount that you choose to invest.

VaR - Accuracy of VaR Methodology

The VaR method is intended to describe the level of loss that would be exceeded no more than 5% of the time. The method uses historical market data from the last 2 years. The graph shows the actual incidence of losses that are greater than the estimated VaR ("VaR Exceptions"). During 2008, exception rate was greater than 5% because actual market moves were much more volatile than the historical data. The selection of different confidence intervals may achieve different results, including a higher incidence of exceptions which exceed the VaR calculation.

VaR - Reliance on beneficial correlation between Traders

The VaR of BHM takes account of beneficially low correlations between traders. To account for situations where these correlations change sharply BHM calculates the VaR assuming all traders are 100% correlated. This fully correlated VaR has usually been between 1.5 and 3 times the size of the regular VaR.

| | | |
|----------------|-------------------------|------|
| At 31 Dec 2010 | BHM VaR (a) | 0.6% |
| | Sum of trader VaR's (b) | 1.2% |
| | Ratio (b/a) | 2.19 |

Notes:

1. Calculated using historical simulation based on a 1 day, 95% confidence interval.
2. Geographical Exposure is based on VaR by region.
